1ST INTERNATIONAL CONFERENCE S.I.D.S. - S.U.I.D. - STILLBIRTH

*To know
to prevent*

Turin | 27-28 September
2019 National Car Museum

Welcome

*We welcome you to the I° International Conference
“SIDS/SUID/Stillbirth: Conoscere per prevenire”
(“To know to prevent”) to be held
in Turin on 27-28 September 2019*

*National and international experts will be welcomed in the
city of Turin to provide their contribution and their expertise
to increase knowledge and make the prevention of perinatal and
child death more and more effective.*

*In 2016, according to the WHO, 2.6 million newborns died within the first month,
75% within the first week. Due to these observations, neonatal mortality and early
neonatal mortality have been placed at the center of international policies aimed at
eliminating avoidable infant mortality.*

*At the same time the awareness of the importance of stillbirth has increased: according
to WHO estimates, in 2015 the number of stillborn in the world amounted to 2.6 million,
98% of which in low- and middle-income countries. Moreover, despite the considerable
progress made to decrease infant mortality in the first year of life, there is still a lot to
do especially in the context of the S.I.D.S.: excluding the neonatal period S.I.D.S remains
responsible for 25% of deaths between 1 and 12 months, still representing the main
cause of death in the first year of life.*

*The multidisciplinary nature of this Congress aims to provide the right ideas for all those
who work in the different areas of health care, as well as aiming for a fruitful comparison
between the different professions to limit the occurrence of these tragic phenomena,
sadly present also in our country.*

*If you wish it is possible to bring your contribution, share knowledge and be updated
by the other participants through their experiences that show the activities of their
territories. We would like you to take this advice into consideration: “Be inspired by the
innovations, which you can implement in your practice, to better inform families and
support joint efforts”. Keep in mind that the statistics, which we read and hear, are not
just numbers but they are children no longer in the future of their families.*

*We invite all those who are interested in Maternal and Child Health (Midwives, Nurses,
Doctors, Psychologists, Health Assistants, Operators in general, etc.), including students,
residents and post-graduates. CME credits are possible for healthcare Professionals.
Participants can submit their works by 30 July 2019, following the instructions on the
www.congressosuidsidsitalia.it site in the “Abstract” section.*

*The Conference has among its guests of honour one of the major scientists in the field,
Professor Peter Blair, President of the International Society for the Study and Prevention
of Perinatal and Child Death (ISPID) - Professor / Researcher of Epidemiology and
Statistics at the University of Bristol (United Kingdom) - Honorary fellow and advisor of
UNICEF (United Kingdom).*

*Other internationally renowned guests will include Prof. Patricia Franco (France), Prof.
Sonia Scaillet (Belgium) and Dr. Inge Margaretha Carla Harrewijn (France).*

*In the hope that “real” training can aim at raising awareness and adequate competence
in these areas, we are looking forward to welcoming you to Turin!*

Scientific Committee

Dr. Silvia Noce (Scientific Director)

- Head of the Center for Pediatric Sleep Medicine and SIDS, Regina Margherita Children Hospital, Città della Salute e della Scienza di Torino.
- Member of Multidisciplinary Commission for SUID and SIDS Studies, Piedmont Region

Prof. Antonio Giulio Piga

- Dean of the School of Medicine, S. Luigi University Hospital, University of Turin
- Researcher at University of Turin

Sonia Scopelliti (Conference Manager)

- Founder and President of SUID & SIDS Italia Onlus, National association
- Member of the International Society for the Study and Prevention of Perinatal and Infant Death (ISPID)
- Member and Italy reference person of the International Stillbirth Alliance (ISA) towards stillbirth prevention and improvement of bereavement care worldwide.

Dr. Alessandro Vigo

- Head of Pediatric Division, Ivrea Hospital (TO)
- Member of Multidisciplinary Commission for SUID and SIDS Studies, Piedmont Region
- Honorary Member of SUID & SIDS Italia Onlus National Association.

Prof. Gabriella Gandino

- Researcher at Psychology Department – University of Turin
- Doctor of Psychology, Psychotherapist, PhD: Clinical Psychology and interpersonal relations
- Professor at Psychology Department – University of Turin and at schools of specialization in psychotherapy recognized by Italian Ministry of University and Research (MIUR)

Prof. Patricia Franco

- Medical Expert in Sleep Medicine
- Professor and researcher at Faculty of Medicine and Surgery, University Claude Bernard, Lyon, France
- Winner of the “Barry Fisher Memorial Lecture” at American Association of SIDS Prevention Physicians in 2007

International Guests

Prof. Peter Blair

- President of the International Society for the Study and Prevention of Perinatal and Child Death (ISPID)–and chair of the epidemiological working group
- Professor of Epidemiology and Statistics at University of Bristol.
- Senior consultant methodologist for both the University of Bristol Randomised Trials Collaboration Unit and the NIHR Research Design Service
- -Honorary fellow and Advisor of UNICEF (United Kingdom).

Prof. Patricia Franco

- Medical Expert in Sleep Medicine
- Professor and researcher at Faculty of Medicine and Surgery, University Claude Bernard, Lyon, France
- Winner of the “Barry Fisher Memorial Lecture” at American Association of SIDS Prevention Physicians in 2007

Prof. Sonia Scaillet

- Researcher at Sleep Medicine Unit of University Children Hospital Queen Fabiola, Bruxelles, Belgium
- Medical Expert in Sleep Medicine
- Vice-president of Belgium Association of Sleep Studies (BASS)
- Member of International Sleep Medical Course (ISMC)
- Head of the Interuniversity Course of Sleep Medicine, Université Libre de Bruxelles, Liège and University College of London

Dr. Inge Margaretha Carla Harrewijn

- Pediatrician expert in Neonatology and Resuscitation
- Co-founder and President of the National Association of Reference Centers for the Unexpected Death of the child (ANCRéMiN)
- Doctor at Neonatal Cardio-respiratory recording at Lapeyronie Hospital, Montpellier, France
- Coordinator of the pediatric activity of the Maternity Department at Arnaud de Villeneuve Hospital, Montpellier, France

Other Relators and Moderators

Dr. Silvana Malaspina

Epidemiological coordinator of the Surveillance of sudden deaths in the range 0-2 years of the Piedmont Region. Member of Multidisciplinary Commission for SUID and SIDS Studies, Piedmont Region. Referent person in Infectious Diseases Surveillance, City of Turin.

Dr. Silvia Noce

Head of the Center for Pediatric Sleep Medicine and SIDS, Regina Margherita Children Hospital, Città della Salute e della Scienza di Torino. Member of Multidisciplinary Commission for SUID and SIDS Studies, Piedmont Region.

Dr. Luana Nosetti

Researcher and Professor at Insubria Varese University, Head of the Center for Pediatric Sleep Medicine and SIDS, Lombardy Region Circolo Fondazione Macchi Hospital- ASST Settelaghi -Varese.

Dr. Raffaele Pomo

Head of the Reference Center of Sicily Region for the study and the prevention of SIDS and for the home-monitoring of infants at risk of cardio-respiratory impairment at Bucchieri La Ferla Hospital, Palermo. Neonatologist at Neonatal Intensive Care Unit, Bucchieri La Ferla Fatebenefratelli, Hospital, Palermo. Member of the National Teaching Center of the group for cardiological emergencies. National councillor and president of the Association of Italian Catholic Doctors, Palermo.

Dr. Fabrizio Gennari

Head of Pediatric Surgery Division, Regina Margherita Children Hospital, Città della Salute e della Scienza di Torino.

Prof. Gabriella Gandino

Researcher at Psychology Department – University of Turin, Doctor of Psychology, Psychotherapist, PhD: Clinical Psychology and interpersonal relations, Professor at Psychology Department – University of Turin and at schools of specialization in psychotherapy recognized by Italian Ministry of University and Research (MIUR).

Dr. Ilaria Vanni

Psychologist, Psychotherapist at Psychology Department – University of Turin, Professor at Psychology Department – University of Turin.

Prof. Pia Massaglia

Past Director of the Specialization School of Psychoanalytic Psychotherapy of Childhood and Adolescence of the Association for the Development of the Relational Approach in Child and Adolescent Neuropsychiatry (ASARNIA), Past Director of the School of Specialization in Child Neuropsychiatry, University of Turin, and Past Director of the School of Specialization in Psychotherapy of the developmental age with psychodynamic orientation of ASARNIA

European Delegate for the Child and Adolescent Section of the E.P.P. (European Federation for Psychoanalytic Psychotherapy in the Public Sector) from 1998 to 2010

Author of over two hundred and sixty publications, she also focalized her work in the development of mourning in the sudden death of the child, planning and carrying out training courses for the health staff of the Piedmont Region.

Dr. Emanuela Malorgio

Family Pediatrician, Piedmont Region.

Dr. Cristina Carbonara

Psychologist, Psychotherapist at Regina Margherita Children Hospital, Città della Salute e della Scienza di Torino.

Dr. Cristina Bevegni

Family Pediatrician, Piedmont Region.

Sonia Scopelliti

President of the Association SUID & SIDS Italia Onlus.

Dr. Antonio Barillà

Journalist.

Dr. Giancarlo Gallone

Family Pediatrician, Piedmont Region. Founder of SIDS Center, Piedmont Region.

Dr. Marco Forni

Pathologist. Member of Multidisciplinary Commission for SUID and SIDS Studies, Piedmont Region.

Dr. Roberto Testi

Director of Legal Medicine Unit of the City of Turin. Director of Prevention Department of the City of Turin. Member of Multidisciplinary Commission for SUID and SIDS Studies, Piedmont Region.

Dr. Giovanni Botta

Fetal Maternal Pathologist at Pathology Department, Città della Salute e della Scienza di Torino. Member of Multidisciplinary Commission for SUID and SIDS Studies, Piedmont Region.

Dr. Annamaria Baldelli

Acting prosecutor at the Juvenile Court of Piedmont and Valle d'Aosta.

Prof. Giovanni Battista Ferrero

Professor of Pediatrics at the School of Medicine of Turin. Head of the Pediatric Clinical Genetics Service of the Department of Pediatrics of the University of Turin.

Dr. Margherita Nicocia

Neonatologist at Neonatology Division and Intensive Care Unit (Head: Prof. E. Bertino) at Sant'Anna Hospital- Città della Salute e della Scienza di Torino.

Dr. Caterina Carbonara

Neonatologist at Neonatology Division and Intensive Care Unit (Head: Prof. D. Farina) presso Ospedale Sant'Anna - AOU Città della Salute e della Scienza di Torino.

Dr. Alessandro Vigo

Head of Pediatric Division, Ivrea Hospital (Turin). Member of Multidisciplinary Commission for SUID and SIDS Studies, Piedmont Region. Honorary Member of SUID & SIDS Italia Onlus National Association.

Prof. Antonio Giulio Piga

Dean of the School of Medicine, S. Luigi University Hospital, University of Turin
Researcher at University of Turin. Professor of Pediatrics at Biological and Clinical Sciences Department, University of Turin.

Prof. Ugo Ramenghi

Professor of Pediatrics at University of Turin. Dean of the Residency School of Pediatrics, University of Turin.

Program

Friday 27 September

- 08.00** Registration
- 08.30** Opening ceremony – Greetings from the Authorities
“Epidemiology: a guide to understand”
“Why do we take a photograph of the phenomena?”
- 09.10** “The role of epidemiology in SUID/SIDS in time and in the world” -**Prof. P. Blair**
- 09.40** Questions
- 09.50** “An example of epidemiological surveillance in Europe: the French model”
Dr. Harrewijn Inge Margaretha Carla
- 10.20** Questions
- 10.30** The critical aspects of the Italian system for detecting the SIDS / SUID phenomenon.
The solutions adopted by the Piedmont Region **Dr. S. Malaspina**
- 10.50** Questions
Coffee Break
- “Protective and risk factors between scientific evidence and good practices”**
Moderators: Prof. P. Blair – Dr. A. Vigo – Prof. P. Franco
- 11.20** Position, smoking and unsafe sleep context **Dr. S. Noce**
- 11.40** The pacifier: a protective factor **Dr. L. Nosetti**
- 12.00** Breastfeeding: protective effects and prevention campaigns **Dr. R. Pomo**
- 12.20** Congenital malformations of surgical relevance and risk of sudden death **Dr. F. Gennari**
- 12.40** Questions
Lunch
- “SIDS, SUID and Stillbirth: the emotional and relational effects of events with a high psychological impact”**
Moderators S. Scopelliti – Dr. G. Botta – Prof. P. Massaglia
- 14.00** The pain of perinatal loss: a shock wave that propagates to concentric circles.
Prof. G. Gandino
- 14.30** When the unexpected happens: perinatal loss in the gynecology and obstetrics wards. Difficulties and needs in healthcare professionals **Dr. I. Vanni**
Moderators Prof. G. Gandino – Dr. E. Malorgio – Prof. P. Massaglia
- 14.50** Sudden and unexpected infant death and the psychological impact of the mourning process **Dr. C. Carbonara**
- 15.10** Parents and family pediatricians’ testimonies **Dr. C. Bevegini/S. Scopelliti**
- 15.30** Questions
Coffee Break
- 15.40** Poster exposition - Abstract guided tour
(the authors present their work to the Evaluation Commission)

“From the inspection, to the autopsy response, to the intervention of the judiciary: the importance of an integrated approach”

Moderators: Dr. M. Forni – Dr. A. Barillà – Dr. G. Gallone

- 16.00** The importance of the inspection in SIDS classification **Dr. R. Testi**
- 16.20** The importance of a homogenous approach and dialogue with the other specialists involved **Dr. G. Botta**
- 16.40** The intervention of the judiciary in SIDS / SUID cases: how, when and why **Dr. A. Baldelli**
- 17.00** Questions
Selected Abstracts Presentation
- 17.10** Oral communications

Saturday 28 September

“Epidemiology: a guide to prevent”

“From physiopathological studies to prevention campaigns through instrumental sleep exams”

Moderators: Dr. S. Noce – Dr. A. Vigo – Prof. A. G. Piga

- 09.00** “The role of arousals in SIDS: from physiopathology to prevention” **Prof. P. Franco**
- 09.20** Sleep medicine and SIDS: the importance of instrumental sleep tests in at-risk infants **Prof. S. Scaillet**
- 09.40** “To know to prevent: prevention campaigns and worldwide objectives” **Prof. P. Blair**
- 10.00** Questions
Coffee Break

“What starts well...”

Moderators: Prof. G.B. Ferrero – Dr. R. Pomo – Prof. P. Franco

- 10.30** Sudden Unexpected Early Neonatal Death (SUEND) in the first month, explained and unexplained **Dr. M. Nicocia**
- 10.50** Newborn collapse: the update of the Guidelines of the Italian Society of Neonatology and Piedmont Region experience **Dr. C. Carbonara**
- 11.10** Prevention and risk factors elimination strategies starting from birth **Dr. A. Vigo**
- 11.30** Questions
Moderators: Prof. G.B. Ferrero – Dr. L. Nosetti – Prof. P. Blair
- 11.40** The university training on SIDS, SUID and Stillbirth: past, present and future. **Prof. A.G. Piga/Prof. U. Ramenghi**

Selected Abstracts Presentation

- 12.00** Oral communications
- 12.30** Awarding of the best oral communications and poster
- 13.00** Closing Ceremony
